

# Turn This World Around

I Peter 4:10

Written/Performed by: Only Won

Guest Vocal: Larissa Lam

Produced & BG Vocals by: Noel Arthurton

We can turn this world around  
the look, the vibe, & change the sound  
It's the Only Won comin' through your town  
Turn the world around turn it upside down

(Chorus)

Turn....turn this world around...Change the look and sound  
Turn it upside down...Turn it all around  
Turn this world around...Change the vibe and sound  
Turn it upside down...Turn it all around

Wish I was a super hero, fly through the sky.  
and save the whole world 'stead of living a lie.  
No more laughing till your silly & you're out of your mind.  
when the girl to your left & the boy down there cries .  
No more living in a nation that has money to store.  
Even when poor we have more than the country next door.  
No more hatin on your sister or on anyone else.  
No more killin your brother for the sake of yourself.  
No more giving man a fish so he can eat for a day...  
Let's teach the man to fish before we send him on his way.  
We can all make that decision individually....& change this  
world for the better...(yeah!)...eventually.

(Chorus)

Turn....turn this world around...Change the look and sound  
Turn it upside down...Turn it all around  
Turn this world around...Change the vibe and sound  
Turn it upside down...Turn it all around

We need to get up in the mornings & look to the sky.  
& realize within, that the question ain't "Why?" ...  
The question is "How can I make a difference in life,  
Showin' love to a world starting from the inside.  
See if I love on other people the way I love on myself,  
yet hate myself & how I look,...then how does that help?  
Searchin for an answer you think is deeper within.  
When its in front of your face... on the tip of your skin.  
Shouldn't be an opinion when it comes to integrity.  
Shouldn't crush me if my enemy comes out ahead of me.  
Lovin' on the ones that hate will set us all apart,  
But lovin' on the higher up is where it's gotta start.  
So let's "turn this"...come on... "turn this" come on..."turn this world around"  
From the top to the bottom, inside out to the in,  
we're gonna "turn this upside down!"

(Chorus)

Turn....turn this world around...Change the look and sound  
Turn it upside down...Turn it all around  
Turn this world around...Change the vibe and sound  
Turn it upside down...Turn it all around

(Bridge)

People walking everywhere acting like they don't care...Not reaching out to each other  
Instead of always being blind begin to open up your mind...Change this world for the better

We can turn this world around  
the look, the vibe, & change the sound  
It's the Only Won comin' through your town  
Turn the world around turn it upside down
